Aims and Scope
Optics Communications ensures the rapid publication of contributions in the field of optics and interaction of light with matter.

Abstracted/indexed in:
Chemical Abstracts; Current Contents: Engineering, Computing and Technology; Current Contents: Physical, Chemical & Earth Sciences; EI Compendex Plus; Engineering Index; INSPEC.

Subscription Information 1997
Volumes 133–144 (72 issues) of Optics Communications (ISSN 0030-4018) are scheduled for publication.
Prices are available from the publisher upon request. Subscriptions are accepted on a prepaid basis only. Issues are sent by SAL (Surface Air Lifted) mail wherever this service is available.
Orders, claims, and product enquiries: please contact the Customer Support Department at the Regional Sales Office nearest you:
New York: Elsevier Science, PO Box 945, New York, NY 10159-0945, USA; phone: (+1) (212) 633 3730 [toll free number for North American customers: 1-888-4ES-INFO (437-4636)]; fax: (+1) (212) 633 3680; e-mail: usinfo-f@elsevier.com
Amsterdam: Elsevier Science, PO Box 211, 1000 AE Amsterdam, The Netherlands; phone: (+31) 20 4853757; fax: (+31) 20 4853432; e-mail: nlinfo-f@elsevier.nl
Tokyo: Elsevier Science, 9-15 Higashi-Azabu 1-chome, Minato-ku, Tokyo 106, Japan; phone: (+81) (3) 5561 5033; fax: (+81) (3) 5561 5047; e-mail: info@elsevier.co.jp
Singapore: Elsevier Science, No. 1 Temasek Avenue, #17-01 Millenia Tower, Singapore 039192; phone: (+65) 434 3727; fax: (+65) 337 2230; e-mail: asiainfo@elsevier.com.sg
Rio de Janeiro: Elsevier Science, Rua Sete de Setembro 111/16 Andar, 20050-002 Centro, Rio de Janeiro – RJ, Brazil; phone: (+55) (21) 509 5340; fax: (+55) (21) 507 1991; e-mail: elsevier@campus.com.br [Note (Latin America): for orders, claims and help desk information, please contact the Regional Sales Office in New York as listed above]
Claims for issues not received should be made within six months of our publication (mailing) date.

Advertising information
Advertising orders and enquiries may be sent to: **Europe and ROW:** Rachel Gresle-Farthing, Elsevier Science Ltd., Advertising Department, The Boulevard, Langford Lane, Kidlington, Oxford OX5 1GB, UK; phone: (+44) (1865) 843565; fax: (+44) (1865) 843976; e-mail: r.gresle-farthing@elsevier.co.uk. **USA and Canada:** Elsevier Science Inc., Mr Tino DeCarlo, 655 Avenue of the Americas, New York, NY 10010-5107, USA; phone: (+1) (212) 633 3815; fax: (+1) (212) 633 3820; e-mail: t.decarlo@elsevier.com. **Japan:** Elsevier Science Japan, Advertising Department, 9-15 Higashi-Azabu 1-chome, Minato-ku, Tokyo 106, Japan; phone: (+81) (3) 5561-5033; fax: (+81) (3) 5561 5047.

US mailing notice – Optics Communications (ISSN 0030-4018) is published semi-monthly by Elsevier Science NL (P.O. Box 211, 1000 AE Amsterdam, The Netherlands). Annual subscription price in the USA is US$ 3704 (valid in North, Central and South America only), including air speed delivery. Periodicals postage paid at Jamaica, NY 11431.
USA Postmasters: Send changes to Optics Communications, Publications Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003. Airfreight and mailing in the USA by Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003.

(∞) The paper used in this publication meets the requirements of ANSI/NISO Z39.48-1992 (Permanence of Paper). Printed in the Netherlands

Photocopying

Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.
Permissions may be sought directly from Elsevier Science Rights & Permissions Department, PO Box 800, Oxfort OX5 1DX, UK; phone: (+44) 1865 843830, fax: (+44) 1865 853333, e-mail: permissions@elsevier.co.uk. You may also contact Rights & Permissions directly through Elsevier's home page (http://www.elsevier.nl), selecting first 'Customer Support', then 'General Information', then 'Permissions Query Form'.
In the USA, users may clear permissions and make payments through the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA; phone: (978)7508400, fax: (978)7504744, and in the UK through the Copyright Licensing Agency Rapid Clearance Service (CLARCS), 90 Tottenham Court Road, London W1P 0LP, UK; phone: (+44) 171 436 5931; fax: (+44) 171 436 3986. Other countries may have a local reprographic rights agency for payments.

Derivative works

Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the publisher is required for resale or distribution outside the institution.
Permission of the publisher is required for all other derivative works, including compilations and translations.

Electronic Storage or Usage

Permission of the publisher is required to store or use electronically any material contained in this journal, including any article or part of an article. Contact the publisher at the address indicated.
Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the publisher.
Address permissions request to: Elsevier Science Rights & Permissions Department, at the mail, fax and e-mail addresses noted above.

Notice

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.
Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

♾ The paper used in this publication meets the requirements of ANSI/NISO Z39.48-1992 (Permanence of Paper).

Instructions to Authors (short version)

(A more detailed version of the instructions is published in the preliminary pages of each volume)

Submission of papers

Manuscripts (one original and three copies), should be sent to one of the Editors, whose addresses are given on the inside of the journal cover.

Original material. Submission of a manuscript implies that the paper is not being simultaneously considered for publication elsewhere and that the authors have obtained the authority for publication, if needed.

Refereeing. Submitted papers will be refereed and, if necessary, authors may be invited to revise their manuscript. Authors are encouraged to list the names (addresses and telephone numbers) of up to five individuals outside their institution who are qualified to serve as referees for their paper. The referees selected will not necessarily be from the list suggested by the author.

Types of contributions

The journal Optics Communications publishes short communications and full length articles in the field of optics and quantum electronics.

Short communications are brief reports of significant, original and timely research results that warrant rapid publication. The length of short communications is limited to six journal pages. Proofs will not be mailed to authors prior to publication unless specifically requested.

Full length articles are subject to the same criteria of significance and originality but give a more complete and detailed account of the research results. Proofs of all full length articles will be mailed to the corresponding author, who is requested to return the corrected version to the publisher within two days of receipt.

Manuscript preparation

All manuscripts should be written in good English. The paper copies of the text should be prepared with double line spacing and wide margins, on numbered sheets. See notes opposite on electronic version of manuscripts.

Structure. Please adhere to the following order of presentation: Article title, Author(s), Affiliation(s), Abstract, classification codes (PACS and/or MSC) and keywords, Main text, Acknowledgements, Appendices, References, Figure captions, Tables.

Corresponding author. The name, complete postal address, telephone and Fax numbers and the E-mail address of the corresponding author should be given on the first page of the manuscript.

PACS codes/keywords. Please supply one to four classification codes (PACS and/or MSC) and 1–6 keywords of your own choice for indexing purposes.

References. References to other work should be consecutively numbered in the text using square brackets and listed by number in the Reference list. Please refer to a recent issue of the journal or to the more detailed instructions for examples.

Illustrations

Illustrations should also be submitted in triplicate: one master set and two sets of copies. The *line drawings* in the master set should be original laser printer or plotter output or drawn in black india ink, with careful lettering, large enough (3–5 mm) to remain legible after reduction for printing. The *photographs* should be originals, with somewhat more contrast than is required in the printed version. They should be unmounted unless part of a composite figure. Any scale markers should be inserted on the photograph itself, not drawn below it.

Colour plates. Figures may be published in colour, if this is judged essential by the editor. The publisher and the author will each bear part of the extra costs involved. Further information is available from the full length instructions.

After acceptance

Important. When page proofs are made and sent out to authors, this is in order to check that no undetected errors have arisen in the typesetting (or file conversion) process. No changes in, or additions to, the edited manuscript will be accepted.

Copyright transfer. You will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

Electronic manuscripts

The publisher welcomes the receipt of an electronic version of your accepted manuscript (preferably encoded in LaTex). If you have not already supplied the final, revised version of your article (on diskette) to the Journal Editor, you are requested to send a file with the text of the accepted manuscript directly to the Publisher by e-mail or on diskette (allowed formats 3.5" or 5.25" MS-DOS, or 3.5" Macintosh) to the address given below. Please note that no deviations from the version accepted by the Editor of the journal are permissible without the prior and explicit approval by the Editor. Such changes should be clearly indicated on an accompanying printout of the file.

Author benefits

No page charges. Publishing in Optics Communications is free.

Free offprints. The corresponding author will receive 25 offprints free of charge. An offprint order form will be supplied by the publisher for ordering any additional paid offprints.

CONTENTS-Alert. Journal included in this free Elsevier's pre-publication contents alerting service (for information, please contact *C-ALERT.OPTICS@ELSEVIER.NL*).

ContentsDirect. Journal included in this free Elsevier's pre-publication contents alerting service (for information, please visit the Website *http://www.elsevier.nl/locate/ContentsDirect*).

Discount. Contributors to Elsevier Science journals are entitled to a 30% discount on all Elsevier Science books.
